Welcome to the **virtual** EU FashionMatch Amsterdam 11.0. This **free of charge** matchmaking event brings together **buyers, companies/designers, suppliers, manufacturers, service providers, experts and investors** from a wide range of countries from around the world.

There is a strong increase of trade enquiries from fashion companies who are interested in the possibilities of nearshoring in Turkey, Portugal and several other European countries including several enquiries regarding the production of sustainable textiles.

Fashion companies are producing closer to home, this trend is called **nearshoring**. Due to the Corona crisis, rising costs in the Far East and consumer demand for fast changing collections, it is becoming more attractive for fashion companies to produce closer to home.

During the EU FashionMatch companies from all over the world, active in fashion & textile and circular & sustainable sector, can meet potential business partners. Besides the international brokerage matchmaking, we will focus in the video clips, round tables / talks on the report ["defining circularity of textile industry in Turkey"](#) , on the [Denim Deal](#) and on "nearshoring" of the production of circular & sustainable textile and fashion in countries like Turkey and Portugal.
